

### zorb-a-gami Puzzler

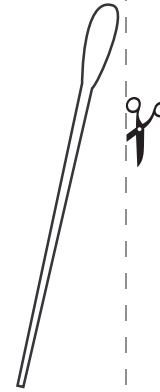

Can you fold this page  
so Zorbee's nose and  
antenna fit on his head?

???

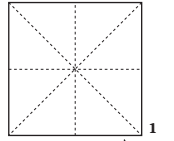

### zorb-a-gami

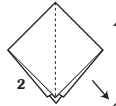

follow the step-by-step directions  
to fold your own zorbee!

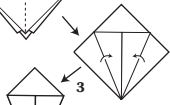

1. Fold paper into  
eight sections.

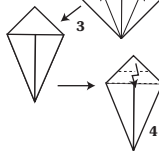

2. Fold paper into  
a diamond with  
four flaps.

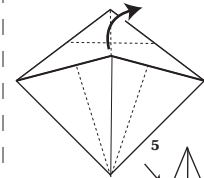

3. Fold front edges  
into center, and  
repeat on flip side.

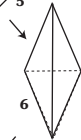

4. Fold top triangle  
twice and crease.

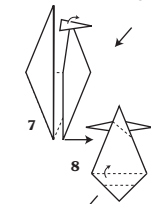

5. Unfold the "flaps"  
and tuck in the sides  
so it looks like a  
tall diamond.

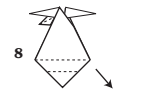

6. Repeat this step  
on the other side  
and flatten.

7. Take the end where  
the paper is split  
along the middle  
and fold each tip  
outward.

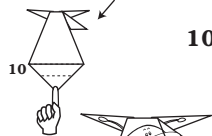

8. Fold the bottom  
triangle to the top  
and tuck flap to  
the left.

9. Flip over, and repeat  
this time tucking flap  
straight down.

10. Push the bottom  
point up to form  
the base.

### zorbee!

You can color him in  
when you are done!
